

Product Name: Academi-Slug
Team Name: Academi-Slug
Release Name: Academi-Slug
Release Date: End of Week 9
Revision Number: v1.0
Revision Date: 10/8/2018

Project Release Plan: Academi-Slug

High Level Goals:

1. Platform + Account (Database) + Weight
 - a. Tutees and Tutors make an account with their university email
 - b. Weight depends on the tutor's preference in teaching a specific course
2. Search Engine (API for UCSC courses), Result Page, Ordering
 - a. Tutee can search for a UCSC course and get a list of all Tutors willing to teach that course.
 - b. Ordered by weight
3. Chat Room and Scheduling
 - a. Tutors and Tutees can communicate with each other and discuss scheduling
4. Rating
 - a. Tutees can rate Tutors out of 5
5. Third Party Integration (Google Calendar, Linkedin)
 - a. Google Calendar for scheduling purposes, Linkedin for qualifications

User Stories For Release:

Sprint 1

- (Points: 2) As a user, I want to be able to create an account so that I can request/provide assistance.
- (Points: 5) As a prospective tutee, I want to search for tutors within a certain class so that I can get the help that I need.
- (Points: 3) As a tutor, I want to weigh the classes that I can tutor so that I can provide the best service to others.

Sprint 2

- (Points: 4) As a tutee, I want to sort my results of desirable tutors alphabetically and via weighted preferences so that I can request the most preferential service.
- (Points: 2) As a tutee, I want to be able to leave reviews for my previous tutors so that I can inform others about prospective tutors.

Sprint 3

- (Points: 5) As a tutee, I want to request access to/communicate with my tutor so that we can coordinate in-person meeting times.
 - If online tutoring is available, I want to communicate using a code editor and/or LaTeX.
- (Points: 1) As a tutor, I want to specify how much money I am willing to charge per subject so that I can inform others about how much I am charging for my services.

Sprint 4

- (Points: 3) As a tutor, I want to provide my Google Calendar availability so that I can inform others of when I am available to meet.
- (Points: 3) As a tutor, I want to list my LinkedIn qualifications so that I can advertise my strengths well.
- (Points: 2) As a tutee, I would like to have my tutor history saved so I can revisit past tutors

Product Backlog:

Additional Considerations:

- As a campus administrator, I want to add my university so that I can connect others within my campus as well.
- As a tutor, I want to have money transferred into a bank account for my services so that I can earn money in a simple fashion.
- As a tutor, I want to be able to tutor multiple students at the same time.
- As a user, I want to ensure that my data is encrypted so that I can ensure that my communications are safe.
- As a user, if I rate a tutor above 4 stars, and if I need help on an another assignment or the same, the highest previously rated tutor who is online will be displayed first.
